

Adelphi University

Pre-College Programs: Adelphi's Pre-College Programs feature **in-person** one-week, noncredit or two-week, credit bearing programs, exploring subjects like: acting and music theater, art and technology, business and entrepreneurship, introduction to nursing, gender issues, psychology, photography, human rights, and more. Visit the website to see the options, dates and fees: <https://www.adelphi.edu/high-school-students/summer-pre-college-program/>

American University

Community of Scholars: For summer 2021, Community of Scholars is shifting **online**, utilizing the best techniques of both live and asynchronous instruction via AU's Blackboard platform. The 3-credit courses will be taught by AU faculty in small, interactive classes. The staff will strive to ensure continuity of the program's high-quality and interactive teaching and programming. Beyond the classroom, students will participate in several virtual experiences, including briefings with officials from Washington, DC institutions, such as the U.S. Department of State, World Bank, and Embassies. Activities also include an SIS alumni panel discussion, talks hosted by professional staff at AU's Career Center and Undergraduate Admissions, and AU student-led community-building events. The program will be held from July 5 to 23, 2021. For details, visit: <https://www.american.edu/sis/communityofscholars/summer-2021.cfm>

Boston University

Academy of Media Production: An immersive 4-week (July 5-30) **on-line**, collegiate media experience for high school students. AMP presents the theory, technical instructions, and practical application to develop your abilities as an effective storyteller. The program begins with fully interactive online master classes covering all production aspects of fiction and non-fiction storytelling. Students then form small production groups to collaborate on extensive project work, which will be screened at AMP 2021: LIVE on Friday, July 31 at 6pm E.T. For more information: <https://combeyond.bu.edu/workshop/academy-of-media-production/>

Summer Journalism Academy: This program presents a **virtual** classroom experience for high school students interested in journalism, writing, or photography. Classroom starts each day with a review of journalism fundamentals in a collegiate format. Newsroom divides students into reporter teams, each led by a professional journalist serving as their editor. Students conduct interviews by phone, email and video to cover city council proceedings, political races, human interest features, and the impact of this year's pandemic. Guest talks offer students advice and insight from experts in specific topics, such as radio reporting, media law and studying journalism in college. There are 3 workshop sessions to choose from. For more information: https://combeyond.bu.edu/workshop/bu-summer-journalism-academy-online/?j=87816&sfmc_sub=6080939&l=205_HTML&u=2256278&mid=514005790&jb=13007

Carnegie Mellon University

Pre-College Programs: The Carnegie Mellon Pre-College 3 or 6-week programs gives rising Juniors and Seniors the opportunity to explore their interests while receiving instruction from acclaimed Carnegie Mellon faculty and staff. The program will be offered through **remote** instruction for summer 2021. Topics include architecture, art, computational biology, computer science, design, drama, music, or more. For more information: cmu.edu/pre-college/academic-programs/index.html

University of Delaware

Edge Summer College Program: **Virtually** from July 12 to August 13, you will: take two college-level courses, taught by UD faculty members, for up to seven transferrable credits; participate in a pre-college readiness workshop led by experienced college admissions professionals, where you'll gain insight into the college application process, including what it takes to create a competitive college essay; and engage with leaders and undergraduate students across campus to learn from their stories of personal growth, resiliency, leadership and success. For further information: <https://www.udel.edu/apply/undergraduate-admissions/precollege-programs/edge/>

Drexel University

Neuroscience Camp: This program is for motivated rising Sophomores and Juniors who have a strong interest in neuroscience topics and research. Camp provides opportunities to learn about the brain and spinal cord, experience live brain activity recordings, and participate in lectures on various related topics. The Neuroscience Camp features **hands-on** experience during a lab project that will include slide mounting, tissue staining and microscopy imaging and analysis. Participants will also receive instruction in literature searching and project presentation. The camp will run from July 12-23, 2021. For application and additional details: [Neuroscience Camp](#)

Summer Institutes: Drexel's summer pre-college programs are summer camps open to highly motivated high school students who wish to explore what a university-level program is all about. Workshops are led by Drexel faculty and utilize Drexel's labs, facilities, and the city of Philadelphia's many resources. Topics include: arts and sciences, biomedical engineering, business, engineering, entrepreneurship, hospitality and food management among others. Most are **in person**. For a full list of programs including dates, and fees: https://drexel.edu/academics/summer/?utm_source=slate&utm_medium=email&utm_campaign=ug-counselor-summer-institute-2&utm_term=recruitment&utm_content=14890b

Summer Real Estate Program: This is a competitive, free **commuter** program running from July 12-20, 2021. The program is designed to introduce current Sophomores and Juniors of color to careers in commercial real estate including architecture, development, investment, construction, brokerage, and urban planning/design. For further details: <https://naiopphila.org/home/naiop-drexel-program-landing-page/>

Georgetown University

HOYA Summer High School Sessions: One-Week, 2-Week, and 3-Week Academies will take you on a **virtual** accelerated learning experience. Participants will examine a single subject area through collaborative online exercises and simulations, group discussions and virtual presentations from industry leaders. **Or enroll in the College Prep Program**. A five-week program, where you'll have the opportunity to take classes with current undergraduate students, learn from Georgetown faculty, and earn college credit. **Or attend College Prep Seminars**, where you'll master test-taking strategies for the SAT and ACT, prepare for the college search and admissions process, and develop valuable skills that will help you succeed in college and beyond. For information on these programs, visit: <https://summer.georgetown.edu/>

Gettysburg College

Summer Programs: Civil War Era Studies Camp (July 5-9) provides an immersive experience into Civil War history. Camp Psych Virtual Camp (July 19-22) provides a window into how psychological science works. Campers will get **hands-on** experience that introduces them to research in psychology in a fun, challenging,

and engaging environment. Campers will learn about cutting edge issues and research in psychology and will gain an insider view of the field. In Young Writers Workshop Virtual Camp (7/12-16) students will develop their unique writing voice, and write their own story in one or more genres – poetry, fiction, nonfiction, and writing for stage and screen. For information: https://www.gettysburg.edu/offices/conference-event-services/summer-programs?utm_source=slate&utm_medium=email&utm_campaign=reach-counselor-secondary-w#civil-war-camp

Lebanon Valley College

Biomedical Sciences Summer Camp: The Health and Biomedical Sciences Summer Camp provides high school students with a window into the scientific basis of medicine and human health. This modified, **on-line** program will include live lectures, guest speakers and online laboratory exercises. The program will be held from July 26-28, 2021 via Zoom from 11 a.m.-1 p.m. and 2-4 p.m. For further details and registration link: <https://www.lvc.edu/life-at-lvc/summer-community-programming/health-biomedical-sciences-camp/>

Marist College

Pre-College Program: This summer Marist is offering 14 course options in a 3-week, **on-line** format from July 12-30, 2021. Courses include: business, creative writing, criminal justice, cybersecurity, data science for polling and political communication, digital media, entrepreneurship, environmental science, fashion design, fashion merchandising, pre-health, pre-law, psychology, and sports communication. For specifics on each topic and to request more information from Marist: <https://www.marist.edu/admission/summer-pre-college/program-dates-locations>

University of Maryland

Terp Young Scholars: Designed for high school students (rising grade 9 to graduating grade 12), Terp Scholars-Online delivers an academic experience that is at the forefront of theory, thought, and technology. You'll choose one three-credit course, attend class, study, work on projects, prepare for exams, and interact with your peers in a **virtual** academic setting. Featuring rigorous online instruction, classes meet every day, Monday-Friday, with meeting times varying according to the specific course. Classes generally meet for three hours a day between 11 a.m. to 3 p.m. and may include an afternoon session. There are over 20 topics including architecture, kinesiology, engineering design, teaching, web programming, and criminology. The program will run from July 11-30, 2021. For more information, click this site: <https://oes.umd.edu/pre-college-programs/terp-young-scholars-online/how-online-program-works/overview>

Marymount University

Constitutional Academy Program: This **in-person** annual summer program located at Marymount University brings together high school students from across the country to Washington, D.C. for a week of deep discussions on critical issues and interaction with scholars, policy-makers, and national thought leaders. Participants also make new friends, tour the monuments and museums, and connect with professionals throughout the D.C. area. Dates TBD soon. For information about the program and scholarship opportunities for the program tuition, visit: <https://www.billofrightsinstitute.org/constitutional-academy>

New Jersey Institute of Technology

Summer Architecture & Design Programs: The College of Architecture and Design offers summer programs for high school students interested in architecture and design, product design, or game design and animation, NJIT's **residential** program builds community, enhances creativity and promotes responsibility for participants. Programs run from July 11-23, 2021. For further information: <https://design.njit.edu/career-exploration-summer-programs>

New York University

Pre-College Programs: Rising Juniors and Seniors can choose from courses in more than 30 academic areas as well as specialized programs in engineering, business, and journalism all while experiencing life as an NYU student. Six-week **on-line** programs run from July 5 through August 13. For further information: <https://nyu.edu/admissions/high-school-programs.html#summer>

University of Pennsylvania

Penn Summer High School Programs: Penn delivers the challenge of an Ivy League curriculum to academically talented high school students seeking a pre-collegiate experience. Explore Penn's historic campus, engage with leading faculty, and build intellectual connections within accelerated two-, three-, or six-week programs. There are many to choose from including Prep Program, Summer Academies, Summer Coding Camp, Data Analytics Camp, Pre-College and Young Scholars. No decisions regarding delivery (on-campus or online) have been made yet about the summer of 2021 at the time of this printing. More details and dates can be found at: <https://summer.sas.upenn.edu/programs/high-school>

University of Rochester

Pre-College Programs - Intensive Studies: These **virtual** courses allow students to get a deeper look into college-level material, handpicked from Rochester's unique curriculum. These highly sought-after on-line programs are very selective with a limited number of spaces for each course. Program dates are July 12-30 and include the topics: Mini Med School, Hajim Engineering, Fundamentals of Extended Reality, and Business Bootcamp. For additional details: <https://enrollment.rochester.edu/precollege/intensive-studies/>

Rowan University

Rowan's Introduction for Students to Engineering (vRISE): A **virtual** workshop experience that will feature two-hour laboratory clinics, exciting engineering activities, building tours, and mentoring by Henry M. Rowan College of Engineering students. High school students from throughout the region will work through Zoom on hands-on projects in teams led by Rowan faculty on Mondays and Wednesdays from June 21 to July 28, 2021. Click engineering.rowan.edu/deans_office/k-12/rise/rise.html for more information.

MEDacademy: This four-week summer day program introduces rising Junior and Senior high school students to medical school and helps to refine their particular interest in health care. Historically, students are exposed to four featured medical specialties and participate in lectures, hands-on demonstrations, case-based learning activities, and interactive clinical simulations taught by our faculty, medical students and staff. Students experience firsthand what it is like to be a doctor, learning from featured guest speakers and guided tours of Cooper University Hospital. To conclude the full medical school experience, students present a final group

2021 Summer Enrichment Opportunities

project during a graduation ceremony. The July 6-30, 2021 program will be **virtual**. See the website for further details and application: <https://cmsru.rowan.edu/education/highschool/MEDacademy.php>

Rutgers University

Mason Gross School of the Arts Summer Programs: Rutgers community arts is excited to offer a wide range of **remote** learning programs this July and August for participants in Art & Design, Dance, Music, and Theater. Now you can explore, create, and perform under the guidance of Rutgers Faculty all from the comfort of your own home. Visit: <https://www.masongross.rutgers.edu/degrees-programs/community-arts/summer-programs/>

Pre-College Programs: For a list of over 100 programs for pre-college students offered by Rutgers University, please visit: <https://em.rutgers.edu/ncp/>

TARGET (The Academy at Rutgers for Girls in Engineering and Technology): TARGET is a summer program designed for middle school and high school students to increase awareness and familiarize them with career opportunities within engineering. The objective of the program is to eradicate the negative stereotypes commonly associated with women's ability to pursue careers in math and science related fields. Program mentors and faculty members facilitate workshops, hands-on activities, labs and projects for the duration of the program in hopes of creating an insightful, exciting opportunity for participants to learn more about the many different engineering disciplines. TARGET is available to all qualifying students regardless of their sex, gender or gender identity. TARGET encompasses six different, one-week long, **commuter** programs for a group of 24 students each. Eligibility for each of the six programs is determined by grade-level. The program is held on Rutgers University- Busch Campus from 9:00AM to 5:00PM each weekday of the designated week. When selecting a TARGET program please note that classes are determined by current grade-level. Visit: <https://soe.rutgers.edu/target>

Summer Scholars Program: The 2021 Summer Session will be held as a fully **on-line** semester. Over 40 courses will be run using synchronous or asynchronous remote instruction formats. The program is designed for high-achieving high school students who are age 16 or above and who have a minimum GPA of 3.0. For further information, dates, and application, visit: <https://summerscholars.rutgers.edu/courses>

University of Southern California

USC Summer Programs: The 4-week, for-credit, college-immersion **on-line** program offers high school students university experience in a subject area of their choice. Programs include the topics of architecture, business, engineering and information technology, global studies, journalism, performing arts, pre-health and science, pre-law, and writing and critical thinking. Courses are interactive, engaging and challenging, allowing students to explore new areas of study or build on their high school coursework. For course descriptions and further information: <https://summerprograms.usc.edu/>

Stanford University

Stanford Pre-Collegiate Summer Institutes: Over 30 summer courses provide in-depth and interactive exploration of academic material. Courses are ungraded and are not awarded credit. These **on-line** classes allow students to engage in every aspect of a course through real-time discussions in which instructors and students see, hear, and interact with one another. For more information, visit: <https://summerinstitutes.spcs.stanford.edu/>

Stockton University

CSI Summer Camp: High school students will work as part of an elite team of investigators and professionals to help solve a murder. They'll be involved with every phase of the legal process, from the crime scene investigation to the criminal murder trial. Students will gain experience with evidence gathering and testing techniques; will learn how to question suspects and witnesses; and will learn how to prepare a case for trial. This camp is currently scheduled to be **in person** from July 11-15, July 18-22, or July 25-29. Each camp session will be a different murder case. For more information: <https://www.stockton.edu/csi/>

Temple University

Pre-College Workshops: Students entering grades 9 through 12 in fall 2021 can choose from two non-credit workshops, in order to develop their interests in various academic fields, build their confidence and sense of independence and engage in interactive, project-based learning. With some programs, students can even get started earning credit towards their degrees. Temple Pre-College Workshops will have three (3) two-week sessions **online** for summer 2021. June 28-July 9; July 12-July 23; July 26-August 6. Click summer.temple.edu/precollegeworkshops to learn more about the programs being offered this summer.

Summer Academy: Students entering grades 11 or 12 in fall 2021 can choose an academically rigorous pre-college program. Join this summer to explore new subjects, dive into a current interest with intense focus, and earn college credit for one undergraduate course at Temple University during this 4-week **on-line** summer program which runs from July 12 to August 6, 2021. Click summer.temple.edu/summeracademy to learn more about this program.

Teen Research Internship Program: The TRIP initiative is a free, **hands-on** learning program for high school students who are motivated to explore their interest in science and medicine. The program is split into 3 phases, including Project Design, Experimentation, and Communication. Participants must have some foundation in biology and chemistry. The course provides a unique opportunity for students to learn whether scientific research is an appealing career path. For details and application: <https://www.tripinitiative.com/>

Virginia Tech University

Black College Institute: For rising Juniors and Seniors, you will **virtually** join other students in engaging workshops about the admission process, skill-building leadership experiences and more. Given the program's commitment to the African-American experience, there will continue to be a social justice component incorporated into the summer program. You will be able to connect closely with a group of 10-12 of your peers along with 2 student staff leaders, who are current VA Tech college students. For more details about this free program: <https://vt.edu/admissions/black-college-institute/virtual-bci.html>
